

the company behind

Established in 2001, Oasis Digital offers:

Public **Angular Boot Camp** and other classes, both online and in person. Purchase a ticket at our website, perfect for one or a handful of developers.

Private classes, suitable for a team, also online or in person. A private class can also include additional days for specific additional topics or consulting assistance.

Consulting services, including project review, planning and strategy assistance, co-development, and deployment guidance.

Project launch, in which we start a project rapidly with a good foundation and critical features, then transition to an internal team.

Full project development with Angular, React, Node, Java, and other technologies.
